Press Release
Gallatin County COVID-19 Update

As of Friday, July 24, 2020, at 11:45 a.m. Gallatin County has 45 new confirmed cases of COVID-19, for a cumulative total of 758. There are 103 confirmed active cases and four current hospitalizations. There have been a total of 654 people recovered in Gallatin County. One person has died from COVID-19 complications.

The new cases are located across Gallatin County and are related to community transmission, contacts with known cases and travel.

More data can be found on Gallatin City-County Health Department's dashboard on our website here. This dashboard will be updated by 12 p.m. daily. Information on statewide cases continue to be found here.

Please note that local data may differ from data about Gallatin County provided by the state as the Gallatin City-County Health Department may be alerted to additional cases before the state.

The Gallatin City-County Health Department calculates the **recovered case number** as the number of total cases minus any active cases, current hospitalizations and deaths.

Gallatin County has been identifying a large number of positive COVID-19 cases. The Health Department is detecting widespread community transmission that will most likely continue for some time. Cases are identified from all over the County and are not limited to one or two locations.

This significant case load is pushing the limit of Health Department contact tracing staff and resources. Please do your part to slow the spread: wash your hands, social distance, wear a face covering in public places, and stay home if you are sick. For more information visit https://www.healthygallatin.org/coronavirus-covid-19/

The Gallatin City-County Health Department Call Center is open seven days a week from 8 a.m. to 5 p.m. to answer questions about COVID-19. Reach the Call Center by phone at 406-548-0123 or email at callcenter@readygallatin.com.

The most accurate local source of information remains the GCCHD [website](#).
