Press Release
Gallatin County COVID-19 Update

As of Thursday, Sept. 10, 2020, at 12 p.m. Gallatin County has nine new confirmed cases of COVID-19, for a cumulative total of 1,160. There are 43 confirmed active cases and two current hospitalizations. There have been a total of 1,114 people recovered in Gallatin County. Three people have died from COVID-19 complications.

More data can be found on Gallatin City-County Health Department's dashboard on our website here. This dashboard will be updated by 12 p.m. daily. Information on statewide cases continue to be found here.

And weekly COVID-19 surveillance reports can be found here. New reports are released each Friday.

Please note that local data may differ from data about Gallatin County provided by the state as the Gallatin City-County Health Department may be alerted to additional cases before the state.

A recovered case means that a person who tested positive for COVID-19 has been released from isolation. It's important to note that even when people are released from isolation, many continue to feel the effects of COVID-19 infection long after they are released from isolation.

The Gallatin City-County Health Department calculates the recovered case number as the number of total cases minus any active cases, current hospitalizations and deaths.

Six out of ten Americans have at least one condition that makes us at-risk for severe COVID-19 complications. This includes common conditions such as diabetes, kidney disease, and obesity. We can prevent the spread of COVID-19 by washing hands, keeping our distance, and wearing a face covering. Our community's health relies on all of us. Learn more at https://bit.ly/32LHoKq

The Gallatin City-County Health Department Call Center is open seven days a week from 8 a.m. to 5 p.m. to answer questions about COVID-19. Reach the Call Center by phone at 406-548-0123 or email at callcenter@readygallatin.com.

The most accurate local source of information remains the GCCHD website.
