Press Release
COVID-19 Death in Gallatin County

The Gallatin City-County Health Department is saddened to announce that three Gallatin County residents have passed away from complications due to COVID-19.

The three people were a man in his 90s who died in a hospital, a woman in her 80s who died in a hospital, and a man in his 90s who died in a long-term care facility. All three died in late October. The Gallatin City-County Health Department received the official death certificates this week that attributed their deaths to COVID-19 and other significant health conditions.

These latest deaths make for a total of 13 COVID-related deaths in Gallatin County. These deaths are in addition to the 457 total statewide deaths [reported](#) today by the Montana Department of Public Health and Human Services.

“Our department sends heartfelt condolences to all of the families and friends,” said Matt Kelley, Gallatin City-County Health Department Health Officer. “The best and most effective way we will curb this virus is by following the recommendations you have been hearing throughout this pandemic. Avoid crowds. Keep at least 6 feet away from others. Wear a face covering in public. Wash your hands thoroughly and often. And stay home when you don’t feel well. These small actions can save the lives of our neighbors, especially those most vulnerable among us.”

Out of respect for the families, no further details will be released.

The Gallatin City-County Health Department Call Center is open seven days a week from 8 a.m. to 5 p.m. to answer questions about COVID-19. Reach the Call Center by phone at 406-548-0123 or email at callcenter@readygallatin.com.

The most accurate local source of information remains the GCCHD [website](#).
